

Prowash R

DESCRIPTION

Prowash R is a highly effective washing off agent, which removes unfixed dyes from the dyed or printed fabric by forming complexes, and it acts as a protective colloid. Prowash R effectively disperses the washed off dyes and prevents their re-deposition on the fabric or garment, resulting in improved wash fastness and reduced back-staining

BENEFITS

Prowash R has the following Beneficial characteristics.

- Powerful dispersant
- Protective colloid to eliminate Problems
- Minimizes back staining
- Compatible with Most Finishing Agents

TYPICAL PROPERTIES

Color	Transparent to translucent
Texture	Viscous Liquid
Odor	Mild
Ionic Nature	Mildly Cationic

PREPARATION

Prowash R should be added directly to the treatment bath at the desired dosage. Once added, it should be mixed thoroughly prior to use. Once the bath is prepared it should be cooled to application temperature.
